融入真实课堂对话作为范文 Real classroom dialogue as model texts

Original Page 2

原始第 2 页

Part 1: 课堂对话范文 Classroom Dialogue Models

(真实课堂对话作为学习范例)

Dialogue 1: 开场问候 Greeting

【要点】 What have you been up to? 用于询问对方最近做什么

Teacher:

Not bad. What have you been up to?

Student:

I've been building a website using web coding tools.

Teacher:

'Up to' means 'what have you been doing' in spoken English.

'Have been doing' refers to the recent past period.

Dialogue 2: AI应用讨论 AI Applications Discussion

【要点】 使用现在完成时描述最近持续进行的活动

Student:

I built a website using these tools.

Teacher:

Is this what you made? That's impressive!

Student:

Yes. I called the New York Times API to create the
bestseller rankings section. It updates automatically every week.

Teacher:

Wow, that's amazing! How did you do that?

Student:

I used a free platform called Redden.

Dialogue 3: 英语学习方法 English Learning Methods

【要点】 学习理念：学英语就像学乐器，需要多练习输出

Teacher:

Learning English is like learning a musical instrument.

You might understand the sheet music and know what others are playing,
but if you don't practice, you won't improve.

You need to practice output yourself.

Student:

I see. Practice makes perfect.

Teacher:

Tell me, during the past few days between our last lesson

and today, how did you practice your English skills?

What kinds of things did you do?

Dialogue 4: 时态纠错 Simple Past vs Past Continuous

【要点】一般过去时用于完成的动作，过去进行时用于持续的过程

Student:

I was learning the other English class on Friday and Sunday.

Teacher:

You said 'I was learning'—you can simply say 'I took' for completed actions. That's simple past tense.

You can say: 'I took two other group lessons on Friday and Sunday.'

Student:

Oh, simple past tense works here.

Teacher:

Right. And 'the other' refers to one specific thing. For two additional classes, you can say 'two other group lessons.'

Original Page 3

原始第 3 页

Dialogue 5: 词汇替换 Vocabulary Substitution

【要点】避免重复，增加表达多样性

Student:

I always review the classes after class.

Teacher:

You have 'class' twice in one sentence. Let's vary it. You can say 'audio clips' or 'audio records' instead. And use 'session' or 'lesson' instead of repeating 'class.'

Student:

I always review the audio clips after each session.

Teacher:

Much better! You can also use 'after each lesson.'

Dialogue 6: 发音技巧 Pronunciation Tips

【要点】连读技巧: form of the verb → form-of-the-verb

Teacher:

Let's practice linking. Say 'form of the verb.'

Link it together: form-of-the-verb.

Student:

form-of-the-verb

Teacher:

Good! Now try 'what are you doing' → what-are-you-doing

Student:

what-are-you-doing

Teacher:

Excellent! And 'at the moment' → at-the-moment

The 'the' is very light. at-the-moment

Dialogue 7: 一般现在时教学 Simple Present Tense

【要点】一般现在时用于习惯性动作、普遍真理、固定安排

Teacher:

The sun rises from the east and goes down to the west.

This is a general truth, so we use simple present tense.

Student:

The sun rises... with 's' for third person singular?

Teacher:

Exactly! 'The sun' is third person singular,
so we add 's' to the verb: rises.

You can also say 'The sun goes up' or 'The sun sets.'

Student:

The sun sets in the west.

Teacher:

Perfect! 'Sunrise' and 'sunset' are the nouns.

Dialogue 8: 现在进行时教学 Present Continuous Tense

【要点】现在进行时可表当下动作、临时情况、未来安排

Teacher:

We are meeting at 5 pm tomorrow.

This is present continuous, but it expresses a future arrangement.

Student:

So present continuous can be used for future?

Teacher:

Yes! When it's a fixed arrangement, like a meeting.

You can also say: 'I'm programming a new project this week.'

That's a temporary situation.

Original Page 4

原始第 4 页

Dialogue 9: will vs going to 对比

【要点】 will用于临时决定， going to用于早已计划的事

Teacher:

'I will help you with that' is a spontaneous decision.

But 'I'm going to study tonight' is a planned action.

Student:

So 'will' is for temporary decisions?

Teacher:

Exactly! And also for promises and predictions.

'Going to' is for plans and predictions based on evidence.

Look at those clouds! It is going to rain.

You can see the evidence—the dark clouds.

Dialogue 10: 将来进行时教学 Future Continuous Tense

【要点】 将来进行时描述未来特定时间正在进行的动作

Teacher:

I will be sleeping this time tomorrow.

This describes an action in progress at a specific future time.

Student:

So it's like 'will be + verb-ing'?

Teacher:

Exactly! 'I will be working at 8 pm.'

Or: 'He will be having a meeting when you arrive.'

It emphasizes the ongoing nature of the action.

Dialogue 11: 断句技巧 Sentence Breaking

【要点】 根据意思断句，让别人听懂

Teacher:

Let's practice breaking sentences.

'Fill in the blanks with the correct form of the verb'

Break it here: Fill in the blanks | with the correct form | of the verb

Student:

Fill in the blanks | with the correct form | of the verb

Teacher:

Good! You speak to be understood, not just to speak.

Dialogue 12: 学习建议总结 Learning Advice Summary

【要点】 多练习输出，把词汇变成习惯性表达

Teacher:

You need to make these words your own.

Practice saying them until they become natural.

Write short paragraphs and feed them to AI.

Ask AI to correct your grammar and vocabulary.

Student:

I'll practice more and use varied vocabulary.

Teacher:

That's the spirit! Keep practicing and you'll improve.
