

Exercise and Health

锻炼与健康课堂要点

Date: 2026-5-10 | Level: A1-A2

English Class Course Material

Course Orientation

课程定位

Speaking Topic	本讲义用于课堂学习、课后复习和口语/写作输出练习。课程资料共 11 个学习页段，适合 A1-A2 学习者按“理解输入 - 模仿表达 - 独立输出”的顺序使用。
----------------	---

- Describe exercise habits and health routines.
描述运动习惯和健康作息。
- Use simple examples to explain personal preferences.
用简单例子说明个人偏好。
- Practice short discussion answers about exercise and lifestyle.
练习关于运动和生活方式的短讨论回答。

9	【重点词汇】

Guided Practice

引导练习

1. What exercise do you like? Give one reason.

你喜欢什么运动？ 给出一个原因。

Answer: _____

2. Describe one healthy habit you want to build.

描述一个你想养成的健康习惯。

Answer: _____

3. Ask a classmate about their exercise routine.

询问同学的运动习惯。

Answer: _____

After-Class Review

课后复盘

- Read the model language aloud twice and mark one pronunciation point.

朗读范文两遍，并标出一个发音重点。

- Write three sentences using today's vocabulary or sentence pattern.

用今天的词汇或句型写三句话。

- Ask AI or a teacher to correct one short paragraph, then rewrite it.

请 AI 或老师修改一个短段落，然后重写。

Self-Check

自我检查

Question	Yes / Needs Work
Can I explain the lesson topic in one English sentence?	
Can I use at least three expressions from this handout?	
Can I complete the practice tasks without reading the answer?	

Course Content

课程内容

课堂要点总结

Class Summary: Exercise and Health

课程主题：锻炼与健康

日期：2026年5月10日

课程类型：英语口语练习课

一、课前交流 (Warm-up)

【课堂要点】

课程开始时，老师询问同学们的业余爱好，引出今天的主题--锻炼。

【对话范文】

老师: What hobbies does anybody have? Anyone wanna try to go first? Like during free time,

what do you do?

学生: I usually play electric guitar in my leisure time.

老师: Leisure time, OK, OK. How long have you been playing electric guitar?

学生: For two years.

老师: That's good. So you play electric guitar, anybody else want to share?

学生: After work, maybe I like traveling, maybe go to the nearest Shanghai places to maybe **climbing.**

老师: Cycling, OK. But traveling you cannot do every day, right?

学生: On weekend.

老师: What about during workday?

学生: Walk a pet. I have a dog, too.

学生: In my free time, sometimes I will read books and do some sports, like go swimming and **go camping.**

学生: I often watch the red book, TikTok on the cell phone, and watch e-sports.

二、锻炼的重要性 (Importance of Exercise)

【课堂要点】

老师引导同学们讨论锻炼的重要性，总结了三方面的好处：保持健康、打发时间、释放压力。

【对话范文】

老师: In today's world, many people usually sit in an office, sit down, so do you think exercise **is important in today's world?**

学生: Yes, it's important. It can keep our health.

老师: It can make us healthier. Anybody else, any other benefits, like good things about **exercise in today's world?**

学生: It can kill the time.

老师: It can kill time. Any other options?

学生: Release stress.

老师: Very good. Release stress. It can release stress.

【重点词汇】

- keep our health - 保持健康
- kill time - 打发时间
- release stress - 释放压力

三、锻炼类型 (Types of Exercise)

【课堂要点】

老师介绍了两种主要锻炼类型：有氧运动(Cardio)和增肌训练(Hypertrophy Training)。

【对话范文】

老师: There are many different kinds of exercises. Anybody want to give me some names of **exercises?**

学生: Running.

老师: Running, right? Running, what else?

学生: Swimming.

老师: We have swimming, running, basic stuff. We have dancing, is also a kind of exercise. Any

other forms?

学生: Play basketball.

老师: Basketball, yeah, in school. Now, those are all kind of like you say. There's this word:

Cardio.

老师: Cardio actually comes from a Greek word. It means heart. So anything you do that's

cardio is good for the heart.

老师: Like running, swimming, everything, your heart goes very fast. So I do cardio. It can be

skipping rope, swimming, walking, running.

老师: And also there is another kind of training. This one, maybe not so good for the heart,

but it's good for muscles. That one is called Hypertrophy Training.

老师: Hypertrophy just means growing. Muscle hypertrophy is good. For hypertrophy training,

what we need to do is lift heavy.

【重点词汇】

- cardio - 有氧运动（源自希腊语，意为'心脏'）
- hypertrophy training - 增肌训练（hypertrophy意为'生长'）
- skipping rope - 跳绳
- lift heavy - 举重物

四、锻炼时间 (Exercise Schedule)

【课堂要点】

老师讲解了锻炼时长和时段选择。科学研究表明，每天只需15分钟中等强度运动即可保持健康。

【对话范文】

老师: How much free time do you have in a week? Like maybe how many hours together after **work.**

学生: 7 hours.

学生: One hour per day also, and in a week in the working day, and in the weekend I have **eight hours.**

学生: 25 hours a week.

老师: OK, that's a lot of free time. So, all right, looks like we have like 7 hours, 8 hours. Let's **say you have 6 hours.**

老师: How often should you exercise a week do you think? So, it will be maybe fun, not too **tired, but also healthy.**

学生: 8 hours a week?

老师: Or depends what you do. Let's say you don't want to do this, you just want to be **healthy.**

老师: Actually, a lot of science says that if you want to be healthy, you only need to exercise **maybe 15 minutes per day.**

老师: This kind of exercise, your heart rate must be around two times your heart. So, for **example, every day your heart rate is about 60 per minute. If you want healthy exercise, you need two times that. Say 120 per minute.**

【重点词汇】

- heart rate - 心率
- per minute - 每分钟
- free time - 空闲时间

五、早晚锻炼对比 (Morning vs Evening Workout)

【课堂要点】

老师引导同学们讨论早上和晚上锻炼的优缺点(Pros and Cons)。

【对话范文】

老师: What are some pros of going, like exercising, let's say, to a gym in the evening?

学生: After work, have enough time.

老师: So we have more time. Any other pros?

学生: It is good things, because after doing that, I will be comfortable.

老师: Yeah, like maybe a lot of during the day you eat a lot of food, so in the evening maybe **you have more protein in your body.**

老师: What about some bad things about going to the gym in the evening?

学生: Maybe fight. Because I very like fight with my friends.

老师: You would like fighting with your friends?

学生: Oh, I think it's bad, because in the evening, it's fight. Because you will be so excited, and **you go to sleep is difficult.**

老师: OK, very good. Some cons, like maybe some people, if you exercise too late, your body **is at something dangerous, like moving. Some people will have trouble sleeping.**

学生: Maybe be crowded in the gym.

老师: Like why do most people go after work? Because that's the only time people have free **time. If everybody has free time, that's when they go, so super crowded.**

老师: What about in the morning? What are some good things about maybe exercising in the **morning?**

学生: The fresh air, you need the fresh air.

学生: We can wake up our body.

老师: OK, yeah. So, why need coffee when you can be like, you can say what cause alertness?

老师: Cause means make something happen. Alertness is when you are like fully awake.

People usually drink what to make this happen? Coffee or tea. It's because of caffeine, it can cause alertness.

学生: Save time.

老师: Yeah, it can sometimes save some time. Why?

学生: We can do other things after working.

老师: Yeah, if you exercise in the morning, you did a hard job in the morning, finish, don't **need to think about it. You come home, you can do hobbies.**

老师: What about some cons about exercising in the morning?

学生: Can't get up early.

学生: Maybe late for work.

学生: Feel tired in the work.

老师: You can just say what, sleepy. And actually some science says that if you just wake up, **maybe like 10 minutes, like you just drink water, go to the gym, actually bad. You can have injury.**

【重点词汇】

- pros and cons - 优缺点
- cause alertness - 引起警觉/提神
- caffeine - 咖啡因
- crowded - 拥挤的
- have trouble sleeping - 睡眠困难

六、锻炼计划 (Workout Plan)

【课堂要点】

老师让同学们设计每周三次、每次一小时的锻炼计划。建议先做增肌训练，后做有氧运动。

【对话范文】

老师: Let's say you guys have 3 days: Monday, Wednesday, Friday. You need to exercise one **hour on Monday, one hour on Wednesday, and one hour on Friday. What exercises will you choose?**

学生: First, I will do 30 minutes cardio.

老师: You will do 30 minutes cardio. Why do you want to do cardio?

学生: Just because it's interesting.

老师: And the other 30 minutes you will do what?

学生: Hypertrophy training.

老师: OK, so you do 30 minutes of this, 30 minutes of that. Do you think it's better to do **cardio first or hypertrophy first?**

学生: Cardio.

老师: Well, some people do that, but actually hypertrophy first is better. Why? Because when **you do cardio you kind of don't need a lot of power. Hypertrophy you need a lot of power. If you are tired, can be dangerous. So first you do this when you are fresh, when you are**

energetic, then you do cardio.

学生: Maybe I will choose half hour in morning and go to running. Because there are not a lot of people in the streets. And I will spend a half hour when I finish my working, go to the swimming.

学生: I will choose hiking with my friends. Or maybe go to the Tango class.

老师: Tango class, OK. Why do you choose tango class?

学生: Because I think first the exercise make our bone. And second, maybe we can, it's both of our can touch something body.

老师: You can just say like tango class can be like more interesting than running. Tango is a skill. Running, you also kind of a skill, but you just become faster. But tango you can do some moves. It's both exercise and fun.

学生: First, I will do 15 minutes high-intensity exercise for leg and arm, with the kettle bell.

老师: A kettle bell, very good. If you guys don't know, it's a kind of weight. People just take it, and you can just do whatever.

学生: Then maybe 45 minutes do casual exercise, just like something, dancing, exercise dancing.

【重点词汇】

- workout plan - 锻炼计划
- high-intensity - 高强度
- kettle bell - 壶铃
- casual exercise - 休闲运动

七、饮食与营养 (Diet and Nutrition)

【课堂要点】

老师讲解了三大营养素：蛋白质(Protein)、碳水化合物(Carbs)、脂肪(Fats)的作用。

【对话范文】

老师: Training is not complete without diet. We have three things: exercise, sleep and diet. All these are important, if one is gone, nothing happens.

老师: What kind of diets do you need to have? What is a healthy diet? Carbs, yeah. We don't **say carbon, we say carb. Carbs is actually a longer word, carbohydrate.**

老师: What are some foods that are carb foods?

学生: Rice.

学生: Noodles.

学生: Bread.

老师: All these like simple foods. Why? What do carbs do? We have protein, we have carbs, **and also we have fats. All these are important but in different ways.**

老师: Protein, we know, make you grow, build muscle, help you fix broken thing. What do **carbs do?**

学生: Have enough energy.

老师: Yeah, carbs, they give you something we call glycogen. Glycogen is basically simple **sugar in your body. You have no glycogen, you're dead. You must have enough glycogen, and most of the time you get it from carbs.**

老师: What about fats? What do fats do? They usually control hormone levels. Hormone, it's **something your body makes. Men and women have different hormones. If you don't have fats, your body cannot control that well.**

老师: Also, you know we have all foods have like vitamin A, vitamin B, vitamin C. Some of **these, if you have no fats, your body just cannot use.**

老师: Protein is like Lego, it is like Lego, one piece go out, protein, Lego piece go in. It can be **muscle, can be skin also.**

老师: Where can you find protein?

学生: In many meats.

老师: Meats, or like in China is pretty easy to get tofu. It's pretty cheap. Tofu also has high **protein.**

学生: Milk.

老师: Yeah, milk, dairy, yogurts, all those needs.

【重点词汇】

- protein - 蛋白质
- carbs / carbohydrate - 碳水化合物
- fats - 脂肪
- glycogen - 糖原（体内简单糖分）
- hormone - 荷尔蒙/激素
- vitamin - 维生素
- tofu - 豆腐
- dairy - 乳制品

八、课堂总结 (Summary)

【对话范文】

老师: What did we learn today? We learn today about some exercises. We also learn about **some basic exercises. Now, you know cardio, anybody remember what's cardio for?**

学生: For heart.

老师: Yes. A cardiologist from cardiology something. You go to a hospital, you have **cardiology. It's the heart doctor. So, cardio is good for health.**

老师: Hypertrophy is for what?

学生: Muscles.

老师: Yeah. Hypertrophy is for growing muscles.

老师: Doing sports, for cardio, you don't need a lot of time. For growing muscle, how was it **different? They need to be harder, right? They need to be harder so you push yourself. If you don't push yourself, nothing happens.**

老师: For hypertrophy exercise, what else do you need? You need to lift heavy, also what do **you need to do?**

学生: You need protein.

老师: Protein, right. And where do you find protein?

学生: In many meats.

老师: Meats, or like in China is pretty easy to get tofu. It's pretty cheap. Tofu also has high **protein.**

老师: We have carbs, right? Rice, noodles, bread, all these foods, they do what?

学生: Energy.

老师: Yes, they give you like glycogen, so you have more energy.

老师: What do fats do?

学生: Hormones.

老师: Yeah, they control hormones. Basically, today just about exercise, we kind of learn the **basics. That's enough for now.**

附录: 核心词汇表 (Vocabulary List)

【锻炼相关】

- exercise / workout - 锻炼
- cardio - 有氧运动
- hypertrophy training - 增肌训练
- lift heavy - 举重物
- high-intensity - 高强度
- kettle bell - 壶铃
- pushup - 俯卧撑
- treadmill - 跑步机

【身体部位】

- heart rate - 心率
- muscle - 肌肉
- bone - 骨骼

【营养相关】

- protein - 蛋白质
- carbs / carbohydrate - 碳水化合物
- fats - 脂肪

- glycogen - 糖原
- hormone - 荷尔蒙/激素
- vitamin - 维生素
- calorie - 卡路里

【食物相关】

- tofu - 豆腐
- dairy - 乳制品
- meat - 肉类
- fast food - 快餐

【时间与频率】

- leisure time / free time - 空闲时间
- per minute - 每分钟
- per day / per week - 每天/每周

【其他】

- release stress - 释放压力
- kill time - 打发时间
- keep healthy - 保持健康
- pros and cons - 优缺点
- cause alertness - 引起警觉/提神
- caffeine - 咖啡因

End of course handout.

课程讲义结束。
